ANYBODY HAVE A MAP?

I cannot believe that he just up and left us. Gods!
We just saved Emon, but did our world just fall
apart?

It was his right, to decide
T'go and be part of his daughter's life,
But It's still a punch in the heart.

Another stellar conversation for the scrapbook
Another stumble as I'm reaching for the right thing
to say
A spot in our party's empty
So, now what do we do?

Does anybody have a map?
Anybody maybe happen to know what the hell to
do next?
I don't know when it began
But we're not friends we're a family, ya know?

So where's the map?
I need a clue
'Cause the scary truth is
I'm flying blind
And I'm making this up as I go

Well this is certainly a new type of disaster
Pour another cup of whiskey
And watch it all crash and burn
We're a puzzle, we're a maze
Each one of us broken a million ways
But this fight won't be our last turn

Does anybody have a map? (Anybody have a map?)
Anybody maybe happen to know what the hell to
do next?
I don't know when it began,
but we're not friends, we're a family, you know?

So where's the map?
I need a clue
'Cause the scary truth is

I'm flying blind
I'm flying blind
And I'm making this up as I go

DOTY, TAKE THIS DOWN

Doty, take this down
We've found quite a unique bunch
They've got a crazy set of gear and other such-and-such
And I can tell you they look like a special type
I bet these folks are pretty handy in a fight

The name is Taryon Darrington
and I'd like to buy your party's help with a little job...
With a quest?
With this list!
I'd like your help winning some fights and other stuff

Well, Little Elf Girl
I'm prepared to pay a lot
I've got so much dough,
Any price you ask I'm sure I've got
I'm going to write a tome...
I'm going to write a book.
When everything's checked off this list
Doty writes things down
As I `venture `round
I'll be world renowned
Wait and see

`Cause all that it takes is a finished hero's mission
It's easy to win when I'm using my inventions
All I gotta do is just believe I can be what I want to be....and then they'll see.

Look, I don't like you
but, let us collect our thoughts
He's just a rich punk
trying to buy his way right to the top.
He might be useful as bait when we go to hell
He won't replace the gnome that we all know so well

Guys, just let him come
It just might be fun
At least try him out
Then we'll see.
I guess we'll see!

`Cause all that it takes is to take him on a mission
Then we can tell if he's a decent new addition
All we gotta do is wait and see, can he be what he wants to be?
I guess we'll see

Doty, take this down,
A new chapter has begun
Hey careful buddy,
This might not be tons of fun

I guess we have a deal
Now we have an 8th wheel
Come on, no need to cry
We won't feel sad when he dies on a quest

I miss Scanlan!
You'd better be able to pay (I'd better be able to pay)
It's Fifty thousand ev'ry day
Hey hey hey hey!

'Cause all that it takes is to take him on a mission
Then we can tell if he's a decent new addition
All we gotta do is wait and see, can he be what he wants to be?
Guess we'll see...

Oh, this will be
I guess we'll see

This will be fun
I guess we'll see

Fun, Fun, Fun

I CAN'T BE A HERO

It's clear that I am a fake
No need to write that down Doty
And that was all I can take
Now they've discovered the truth of me

No, I'm no adventurer
Just a rich boy at the end of the day
So I got nothing to share
My only skill is to pay

I set out, set out on this quest
'Cause my dad is the worst
I set out, set out on this quest
To show my worth, to show my worth

From the outside, sure I look composed
But now you can see, all my power's in my clothes
And now I'm bleed, bleed, bleeding on the grass
No, I can't be a hero

I try not to cry, but I can't stop the tears
So I bare my soul for everyone to hear
Then I vom, vom, vomit on the grass
No, I can't be a hero
Now everybody sees, the pretty little liar that is me

Aw, now I like this guy
Starting to feel like he might belong
And you assholes made him cry
Aw come on Vex, we're just having fun

He step'd up, step'd up to the fight
Even though he got burned
He step'd up, step'd up to the fight
And now he's learned, let's hope he's learned

On the outside, this might look like fun
But you have to see that the peril's just begun
And though you're bleed, bleed, bleeding on the grass
You can still become a hero

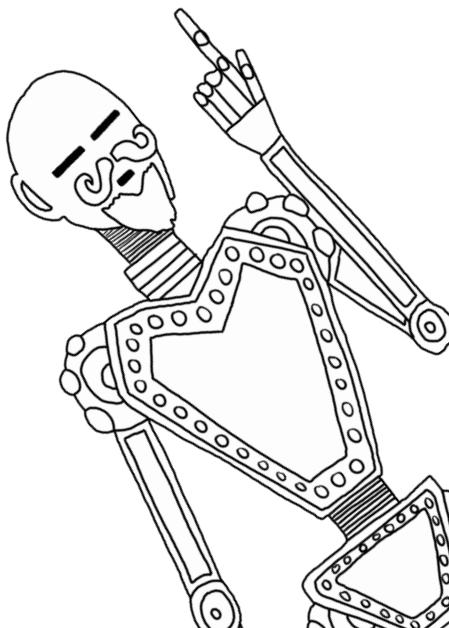

We'll fight with you, but it will still be tough
because the bad guys are gonna treat you rough
So we'll be watch, watch, watching your frail ass
If you want to be a hero, oh
Just know that where we go, trouble seems to follow.

I just want to be a hero, but I haven't had the chance
My father thought it best that I focus on finance
But I want to be a hero, like the ones I've read about
Then I'll prove my worth, and remove my father's doubts

Yes, I will be a hero, who does good across the land
And then I'll be renowned by all my fellow man
So, let me walk with you in battle, into the proving grounds
I swear to do my best, if you just let me stay around
Will you let me stay around?
Can I last staying around?
Will I be worth keeping around?
Oh, you'll let me stay around!

This is where my new journey begins
Will I grow to be more than I've always been?
I'm sure this blood I've shed won't be my last,
But I'm becoming a hero
I'll learn to fight, and how to become tough
Then I'll show the world that I'm more than enough
And I'll prove, prove, prove it to my dad
When I become a hero, oh
Then everyone will know, when I become a hero.

They will know (ooh)
That I can be a hero
Hero, hero, oh-ooo, oh-oh-oh-oh

FIGHT A KRAKEN

Now, we're just stealthin' in the water
looking for lodestones
This is the most awesome adventure
that I've ever been on

I found a skull?
A rotting, gross skull!?
Oh no-oh, Oh no-oh-oh

If it sees us then the muck is gonna hit the fan
I think the Kraken knows we're here,
we need another plan

I see the Kraken
Let's get the lodestones
Time to go, Time to go-oh

There are tentacles everywhere
Just our luck, they also ensnare
It grabs me
Grog and Tary
And so it goes
When you fight a Kraken, Kraken

Oh holy hells it ate Grog and Kiki
We've got to get these stones and set them free

Hold on, I have a great idea
To escape the Kraken
Kraken
I'm gonna fill my jug with oil and wait
I'll use my spire to ignite a flame

We'll blow up this Kraken
Kraken
Kra-[boom]

There's an explosion then they fall out of the Kraken's mouth
But then a bolt of lightning strikes and it knocks
Keyleth out
Freak-in Kraken
I seriously hate this Kraken

Hey, you guys
Hey, you guys
I just found the final loadstone
I wake Keyleth with my potion

Let's all be electric eels and
Go, Go, Go!

We're escapin' the Kraken, Kraken

We're gonna make it to the door scot free
As eels we're all immune to his lightning
Although, he still has tentacles

Run from the Kraken, Kraken

We can't escape if he keeps grabbing us
But we can't kill him, I feel so useless
Fighting this kraken, Kraken, Kraken
Enough of this fight
Time to get reckless

If I attack it
Then I can end this

I start attacking all of his tentacles
Before I finish Vax and Tary both fall

Then Vax goes in the Kraken's mouth
I fish his lifeless body out

Percy finds his way back to the door
Keyleth and the twins teleport
Tary and me are all that's left
I see a clear path to the rift
So forget Tary, I'm gonna save myself

I flip off the Kraken, Kraken

I can't believe we made that great escape
We almost died over my aramente

Keyleth, look at my brother
Brother...

I was fighting the Kraken
And then
What happened
oh no, I'm DEAD

Vax was killed by the Kraken

REQUIEM

If you wake up, this nightmare will end
I will be saved from my guilt and this sorrow
Was it foolish to face the Kraken
Should we have planned some more

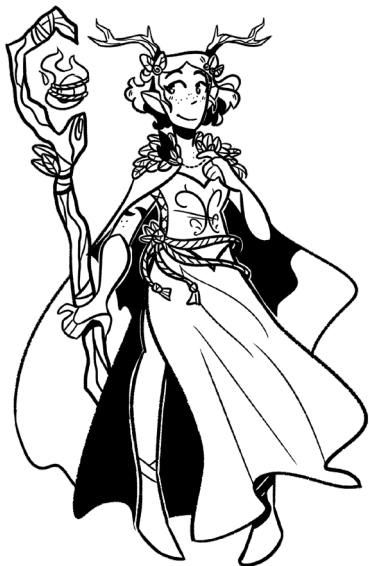

Now you're curled up, lifeless on the floor
Looking at you, I'm chilled to my marrow
If my success results in your doom
Then what was, what was it for?

I won't carry a heavy heart
I won't lose you to lead my people
I won't let you break your promise to me

I will not be the grieving girl this night
You know that I love you
Follow my voice, find your way back to my side
So I will sing no requiem tonight

You fell in battle, the hon'orable way
but no one but me was supposed to kill you
So wake your ass up, come back and face me
'Cause I will sing no requiem

The Raven Queen may want your life
but now it's my turn to make a deal for you
I'm not willing to take your wings and fly
So I will sing no requiem tonight

I won't carry a heavy heart
I won't lose you to the Raven Queen
I will not give up on reviving you

I will not be the grieving girl this night
You know that I love you
Follow my voice, find your way back to my side
(need you by my side)

I will sing no requiem
Tonight

Though my champion may fall, it is not yet time to
sleep
His thread of fate still remains unsevered
No, do not mourn my thrall
He has much left to complete

So, I return him to you all for a time
I will call on him when the time is right

It's my first time seeing you
I don't know what to do
But will you let him come back
Is it true?

I will not have to grieve you on this night
You know that we love you
Thank the gods, you've found your way back to my
side

I will sing no requiem
I will sing no requiem
I will sing no requiem tonight

Oh... oh.... Oh.... Oh....

THE PICTURES THAT DOTY DREW

It might behove you to try to learn our names
Since it seems you might be with us for a little
while.

I had Doty make you some...I don't know, flash-
cards?
To help you make our names and faces reconcile

Well, learning names is something I don't often do
twice

It is an honor I bestow on very few
But, since you seem to be both powerful and wise
I will really try to learn these names for you

But still I know that they accept me
Even though they may pretend
to both hate my guts
We're all really good friends

It will make a world of difference
If you take a little time
To throw away those fake names
And store our real ones in your mind

I'm here to walk you through it
Make sure you take your notes
Do it in Gnomish or Draconic
Whatever floats your boat

They may be awkward
But use the pictures
The pictures....that Doty drew
Not sure the privileges you're thinking of
But I can sure see that your interest is piqued
So, if you wanna take a shot at love
I won't tell you "no", but I don't think you'll succeed

It will make a world of difference (this certainly is
different)
If you take a little time (but I'll take a little time)
To Throw away those fake names (to unlearn these
nicknames)
And store our (the) real ones in your (my) mind

They may be awkward
But use the pictures
That Doty...

And I'll be watching
I can see everything you do
Keep that list (I got it, I'll)
Follow through

Even though being in this party can be crazy
This is a chance for me to prove that I can grow
So you had better try your best
Though the task may seem small
You'd better believe there'll be a test
So make sure you learn them all

I'll do this one thing
'Cause you'll be watching
'Cause it's the right thing

They may be awkward
But, I'll use these pictures
The pictures
That Doty drew

ONLY US

I read Books telling stories of damsels in castles
I read Books telling me they would flock to my side
Lawrence changed that all for me
I wish we could go back to what we had

'Cause what we had going felt right

Lawrence taught so much more than the words he
had spoken
He was tall, fair and strong so I opened my heart
Our affair was discovered
My father became furious and said
"I can't consent to all that"

Back then it was us
It was just us
And only us
But when my dad heard, he broke down my world,
it shattered
Still I had that

It was just him
And it was just me
And deep down that's all that I want it to be
But the rest of my world falls away
He used to say

I never thought there'd be someone like you who
would want me
Though I give you ten thousand lessons my feelings
aren't bought
So if you want to see me
Create stories and dreams and shoot the breeze
We'll Talk about Literature, Poetry, Wax philosophical
thoughts

So it can be us
It can be us
And only us
And though we both know, we can't let it show to
Howaardt
We can try that

It's not so impossible
Nobody else but the two of us here
'Cause you're saying it's possible
If father found out he'd make you disappear

So I can be son (So you can be the son)
Father wants me to be (Howaardt wants you to be)
It's he that should learn

I'll make Dad proud
I'll make Dad proud
That I'm his son

And who I adore won't count anymore
We can try that

Soon I'll(you'll) be
The son that he needs me(you) to be
Then Larry(Tary) will be free to love me
Then Larry(Tary) will be free to love me

He's free to love me
He's free to love me

Then it's only us

YOU (I) WILL BE FOUND

I remember when it used to be just us
I remember when we didn't have a family we could
trust

So just how the hell did we find ourselves here?
With all these friends, that we hold so dear.

The, Raven Queen will call on us one day
Surely there's a chance that we might not survive
the fray
That's even more reason to enjoy life
Even if we're not side by side

And so, let's enjoy this downtime
And go, with the ones we love
Even when we don't see eye to eye
I know we have a bond that will not die
And if you need me, look around
And I will be found

You know I've always got your back
No matter what kind of foe attacks
So if you need me, look around
I will be found (x5)

We take time to handle business of our own
Even when we are apart, we are never alone.
Even though we have to work

We still come together
For adventures

Ah (x5)
Time just keeps on turning

Ah (x6)
Time just keeps on turnin'

Ah (x2)
Time just keeps on turnin'

It's been a year (x2)
Time just keeps on turning

It's been a year (x3)

Even when we don't see eye to eye
I know we have a bond that will not die
So if you need me, look around
I will be found

You know I've always got your back
No matter what kind of foe attacks
So if you need me, look around
I will be found (You will be found) (x2)
You will be found

Out of the chaos
We are rebuilding
And life is good, life is good

But there's still a spot that's empty
And all of us can see what
We must do, we each try to...

We try to find our gnome (x4)
We try to find our gnome (Where are you Scanlan)
(x2)
Where are you, Where are you Scanlan (We cannot
find our gnome)

Even though we don't see eye to eye
I hope we have a bond that will not die
And though I'm not around

You will be found!

You know I've always got your back
No matter what kind of foe attacks
So if you need me, look around

I will be found
Even when we don't see eye to eye

You will be found
I know we have a bond that will not die

You will be found!
You will be found!
I will be found

I HAVE TO TELL HER

I know
That you helped kill the dragons
That were making a mess of Emon
I know
That you hang out here in Whitestone
The city that Percy is from

And I know
About your bearded buddy Grog
Who has replaced me as your best friend
Yes, I've noticed
Vox Machina's accomplishments
Since you all met up in Westruun

I have kept a log inside my head
Of the things you've done and said
That's how I knew you were here
Although you were not near
So we found our way
'Cause we have things to say

I have to tell her
That we're proud of her, you see
I have to tell her
That I miss my dear Pike-y

But we're a continent apart
it's been so long we don't know where to start
I have to tell her
What should I tell her

It's not
That I don't love my family, er-
Just be on your guard. The name Trickfoot was
certainly earned

Yes, there may be some self serving reason
For this visit I've yet to discern

There is still one thing we have not said
Warnings of a threat we dread

I have to tell her
Of the monster in my dream
I have to tell her
Of her curs-ed family

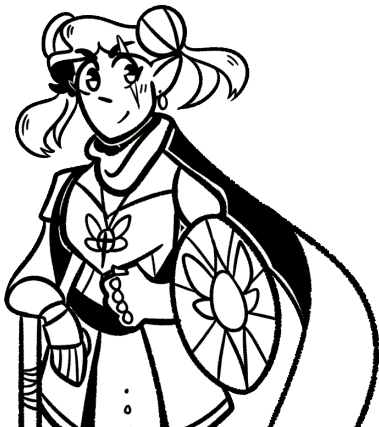

But we're a continent apart
And it's a tale I don't know where to start

But I had to tell her
We have to tell her

That there's a demon hunting our family line
I've never heard of this before

But cousin it's true.
Uncle Ogden would not lie
I'm just not sure of anything
Oh, don't worry dear
We'll help you (x4)

We've been a continent apart
So much to say, I don't know where to start
I have to tell you
We have to

I Trusted You

So you heard about all my friends achievements
And you pulled your cart back into my life
Oh, you're good?
You were here to steal a life you could never
provide.

Well I hope you're proud of your grand illusion
Yeah, I hope you got what you want and more
Now I see what an avaricious life you were living
before

And you say what you need to say
So that you get to walk away
It won't kill you to have to stay trapped
In this magical ball
Well I'm sorry you had it rough
And if you think it's not enough
I swear I'll kill you all

So the money was all you wanted
You betrayed my trust in you
My Trust in you
I Trusted you, you, you
Got a taste of a cake so perfect
Satisfied your sweetened tooth
Good for you
Good for you

Well you crossed a line when you tore our dresses
Took the silverware with your family "curse"
Was it fun?
Stealing gold is one thing, but hurting Pike is the
worst

All the Riflemen know your face
So make haste when you leave this place
And if you would come back this way
Trust me they'll shoot you on sight

Well I guess we can call a truce
Go ahead, you can cut us loose
Go ahead now, we won't fight

I'll give you gold and I'll let you go
Is that good for you?
That should be good for you, you, you?

You stabbed our backs when we should have known
Not to trust in you
We shouldn't trust in you, you, you

All we got was a measly sum (We'll give you gold)
You have a lot from the deeds you've done (and we'll let you go)
Can we not have a bit of fun? (Is that good for you?)
We give back a fantastic story (Would that be good for you, you, you?)

All our ties cut when you were ten
Haven't seen you since way back then (You stabbed our backs when we should have known)
Is our avarice such a sin? (Not to trust in you)

Oh gods I don't want you to drop me, drop me just let me out! (Trust in you)

So the money was all you wanted
You betrayed Pike's(my) trust in you

She (I) Trusted you
Trusted you, you, you
Got a taste of a cake so perfect
But you lied and you hid the truth
We found the truth
Just one truth
Trusting you
Makes us fools

Our only curse is "diabetes"

LEST I SEE OUR FAMILY FALL

You never loved me father
at least you never said it to me
That's how I grew up
But I've seen the world now
I'm diff'rent now
Still, you spent a lot to summon me
(so) What's this task I must complete
Lest I see our family fall

Lest I see our family fall
I struck a deal with the Myriad for protection
I've been their man, paying them as long as I can...
Remember

Lest I see our family fall
I had you brought here to make a political connection
That's what I need
For you to come home and marry
Lydia

Wait, now my mind is reeling
Are we a crime family?
Always knew you were unfeeling
Only thinking of money

I don't mean to make you angry
(but) this is all your fault
Now I must share this burden to
Lest I see our family fall

Lest I see our family fall
I went to battle to save everything we've worked for
I thought I knew how I could make things right for
you
But I failed

Lest I see our family fall
We need a plan so no one can ruin our position
You ran away and took the last of what we'd saved
Remember?

While you traveled and you daydreamed
With the money we supplied
The Darringtons in Wildmount have been fighting
to survive

I don't mean to make you angry
but this is (all your / not my) fault
And (I / you) must share this burden to
Lest I see our family fall

Though you try (You tried)
To give your kid the (shield me from your) world
Leave 'em whatever (Give me whatever) you've got

What if I
(What if I)
Gave all I could
(Could do more good)
And I thought it (You never thought I) was enough

But I find (And I felt) that
It was not

Did I let you down?

What else can I do?

Everything I ever did
I did (because of / it all for) you
I don't mean to make you angry
but this is (all your / not my) fault
And (I / you) must share this burden to
Lest I see our family fall

Lest I see our family fall
I think I'll take another day to weigh the options
Figure out what to do
But father, once I'm through
I'm finished

IN THE FUTURE

Father, Mother, Maryanne
We've cleared the debt of Darington
This day

Now our family must evolve
Rise above our shameful fall
We've lost our way

We can change how we're perceived
Help to meet the people's needs
Like heroes do
Shady deals are now in the past
Instead let's focus on the task
Of noble pursuits
I believe that's what we must do

I can see a change in the future
We work to make things right in the future
Feels like we could go on in the future this way
Living in a selfless way

You walk in here and talk about
The things I've done as though I should be shamed
I fought to get this life for us, a
Life you'd just as soon give up
You are such a fool!

All you had to do was marry
That girl we got for you Tary, but no not you
Now you've cost us everything
And come to me with this silly dream
Of philanthropy

Father, stop and take in the view
What we lost, it was because of you

But I can see a change in the future
We'll work to make things right in the future
Feels like we could go on in the future this way, this
way

We can make things right in the future
Pull our fam'ly tight in the future
we can live alright in the future this way
Living in a selfless way

'Cause now I know
The type of man I want to be
Vox Machina has taught me well the ways of love
and family
Where you go
Now is up to you but you can trust that I'll

Do good for one, then another
And fight to become better
Then write all of it down here
and keep writing until the entire
World knows our good name

And I suddenly feel the touch of fate

Dad strikes the ground
'Til his hand goes numb
I look down
And I see him look up at me
He understands me
And everything's okay

I can see a change in the future
We'll work to make things right in the future
Tary, let's you and I shape our future this way, this way

We can make things right
Pull our fam'ly tight
We can live alright in the future this way

Living

Truely

In a selfless way

WORDS FAIL

I never meant to hurt you all
I mean, I did, but not this much
Now I have said I'm sorry
But I don't know what else to say
What can I say
Words fail, words fail
Just tell me what to say

I didn't know how to be part of this
How to fight with a such heroic group
How to impress that perfect girl
Who somehow could see the good part of me

I chose to be the dad who stuck it out
Not just a clown who crap'd the bed
Be more than I was here
'Cause fun was all that I tried to be

That's not a worthy explanation
I handled it wrong
But what can make up for all of the time I was gone

Words fail, words fail
There's nothing I can say

Except sometimes, you get murdered by a dragon
And sometimes, you have used up all your courage
So you run out, run out, run out
On the family you knew
Even though they believed in you
'Cause they believe in you
And you think "maybe if I blame it on them"
And not me, I won't feel
so...

So much like a traitor..
...like the bastard who ran..
...like he thinks we're replaceable..
I need to show him (them)...We're not done

You were on your own adventure
You had to deal, we know
But we are happy

I guess we couldn't let that show
I guess we couldn't hide our hurt
I guess we wanted you to see
It hurt for you to leave

And act like you don't see
That we all care

You don't have to pretend
You're something better than some broken parts
Pretend you're something other than
the mess that you are

But I know I've made a mess of it
Said those things that I regret
So, how could you forgive me

'Cause I've clearly made a mistake
I didn't even return as me
I couldn't face the heartbreak
I couldn't face what you'd think of me
I couldn't bear to see what you think of me

Most of all, Pike and Grog
I feared facing you two
Would my pals crack a smile?
Or would they hate me too?

Will you just stop your hiding and see we love you?
You're still one of us Scanlan

But how do I begin
Begin to come home(x2)

FINALE

Doty, take this down.

That was the beginning of the end of my time with Vox Machina. The journey to Ank'harel revealed a new and greater danger. Much as I, Taryon Darrington, wanted to remain with my comrades in arms, I knew that I had to return to make good on my plans for the Darrington Brigade. I also trusted that, with the return of Scanlan Shorthalt, though he may be, there was no obstacle that my friends could not overcome.

Wow, I truly have friends.

Vox Machina has truly shown me a new way to live. I traveled with them to become an adventurer, but they made me a better man. While I'm definitely poorer for having known them. What I've gained from them is invaluable.

It's a beautiful story. Almost as if it was written in a book. Now...

Time to set our sights on the future
We'll fight to make things right in the future
Using all the lessons learned along the way.
This way:

We will be a light
Pull our fam'ly tight
We will fight the fight
when the day must be saved

He will be alright in the future

And I owe it to Vox Machina

CHARITY RECOMMENDATIONS

In lieu of taking any monetary donations or sales, the team behind Doty Take This Down has endeavored to draw attention to some charitable organizations.

The Trevor Project

<https://www.thetrevorproject.org/>

A charity that was also closely associated with *Dear Evan Hansen* on Broadway and beyond, The Trevor Project is an organization that's dedicated to saving the lives of LGBTQ youth. The Trevor Project is an American nonprofit organization founded in 1998 focused on suicide prevention efforts among lesbian, gay, bisexual, transgender, queer, and questioning youth.

If you know the story of *Dear Evan Hansen*, you know it handles themes related to suicide and mental health. It only makes sense to look into an organization like this that's dedicated to helping young people survive to see another day even when they may not have the best support system around them.

Take This

<https://www.takethis.org/>

As a Critter-based community, many members of the Cantata Pansophical are also table-top gamers. More and more people are realizing the social, mental and therapeutic benefits of table top games. Take This works to decrease the stigma, and increase the support for, mental health in the game enthusiast community and inside the game industry. It's a smaller organization, but one that has a mission that fits strongly with the values of our group.

The Critical Role Foundation

<https://critrole.com/foundation/>

It's very unlikely that you've gotten here and don't know about the Critical Role Foundation and the charities supported by the Critical Role cast and crew. Even so, we'd be remiss to not point some attention back to the charitable organization run by the folks who inspired the project.
